DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

- species of claims 2-6 and 48-51;
- species of claims 7-10, 52-55, and 99;
- species of claims 11-13 and 56-58;
- species of claims 14-18, 59, 60, 62, and 84;
- species of claims 19-22, 34-45, 73-76, and 86-97;
- species of claims 23-29, 64, and 77-83;
- species of claims 30, 65;
- species of claims 31, 32, 66, and 67;
- species of claims 33, 61, 63, 68-71, and 85;

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 46, 47, 72, 98, and 100 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
